

JET C

FOR COLD AND WARM AREAS

TECHNICAL DATA

- Curved insulated flap, 33mm thickness with three alveolar chambers. With insulating panel inserted in the central chamber.
- ABS corner fittings.
- Entirely constructed in anti-condensation shockproof PVC.
- Smooth flap surface for better air flow and less dust deposit.
- Electro-welded and galvanised protection mesh. (Stainless steel on request).
- An important feature of our air inlets is the possibility to be positioned, with respect to the housing wall, in a customised manner according to the thickness of the wall and the requirements of the installation.
- Wide range of accessories and options for a complete installation.
